### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: With respect to claim 1, the prior art does not disclose nor render obvious the claimed combination of subject matter, particularly a dirt cup housing for removably attaching to the main housing and defining a dirt collection chamber, said housing including a first sidewall; an inlet in said first sidewall of said dirt cup housing in fluid communication with said dirt collection chamber; an outlet in said first sidewall of said dirt cup housing in fluid communication with said dirt collection chamber; and an attachable and detachable filter holder on said dirt cup housing external to said dirt collection chamber and downstream from said outlet. With respect to claim 20, the prior art does not disclose nor render obvious the claimed combination of subject matter, particularly a dirt cup carried on one of said nozzle assembly and said canister assembly; said dirt cup being characterized by a housing defining a dirt collection chamber, said housing including a first sidewall; an inlet in said first sidewall of said housing in fluid communication with said dirt collection chamber; an outlet in said first sidewall of said housing in fluid communication with said dirt collection chamber; and an attachable and detachable filter holder on said housing external to said dirt collection chamber and downstream from said outlet.

2. In independent claims 1 and 20, none of the prior art have a dirt cup carried on the nozzle or canister assembly with both the inlet and outlet carried on a common wall (first sidewall). All of the prior art cited have dirt cups, that are carried by the nozzle or canister, that have the inlet on one wall and the outlet on a different wall. Scott '677 is the only one that has an inlet and outlet on a common (circular) wall, but Scott does not disclose a dirt cup carried on one of said

nozzle assembly and said canister assembly. Applicant's arguments, see the remarks section filed 9/25/06, with respect to Scott '677 have been fully considered and are persuasive.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
